JOURNAL OF
Inorganic Biochemistry

Volume 49, Number 1 1993

Contents

S. G. BROWN, R. M. HAWK, and R. A. KOMOROSKI (Little Rock, Arkansas)
Competition of Li(I) and Mg(II) for ATP Binding: A ^{31}P NMR Study 1

R. A. FARRELL, H. J. MCARDLE, and J. CAMAKARIS (Victoria, Australia)
Effects of Metallothionein on the Observed Copper Distribution in Cell Extracts 9

R. E. SHEPHERD, Y. ISAACSON, L. CHENSNY, S. ZHANG, R. KORTES, and K. JOHN (Pittsburgh, Pennsylvania)
Lactobionic and Gluconic Acid Complexes of Fe^{II} and Fe^{III} ; Control of Oxidation Pathways by an Organ Transplantation Preservant 23

W. A. EDENS (Dubuque, Iowa), J. RAWLINGS (Madison, Wisconsin), D. S. SPECKHARD (Dubuque, Iowa), and W. W. CLELAND (Madison, Wisconsin)
Characterization of Ammine and Aquo Substituted Chromium Pyrophosphates by Ion Exchange Chromatography 49

H. J. CHURCH, J. P. DAY (Manchester, United Kingdom), R. A. BRAITHWAITE, and S. S. BROWN (Birmingham, United Kingdom)
Binding of Lead to a Metallothionein-Like Protein in Human Erythrocytes 55

A. BIGI, G. FALINI, E. FORESTI, M. GAZZANO, A. RIPAMONTI, and N. ROVERI (Bologna, Italy)
Magnesium Influence on Hydroxyapatite Crystallization 69

Volume 49, Number 2 1993

Contents

F. KRATZ and L. MESSORI (Florence, Italy)
Spectral Characterization of Ruthenium(III) Transferrin **79**

G. PNEUMATIKAKIS, C. CHASSAPIS (Athens, Greece), and A. RONTOYIANNI (Aghia Paraskevi, Greece)
Complexes of Palladium(II) Chloride with Histidine Methylester, X-Ray Crystal Structure of $Pd(HisOMe)Cl_2$. Ternary Complexes of Palladium(II) with Histidine Methylester and Nucleosides **83**

C. T. SUPURAN (Bucharest, Roumania), G. MANOLE (Oradea, Roumania), and M. ANDRUH (Bucharest, Roumania)
Carbonic Anhydrase Inhibitors. Part 11. Coordination Compounds of Heterocyclic Sulfonamides with Lanthanides are Potent Inhibitors of Isozymes I and II **97**

R. HAN, A. LOONEY, K. MCNEILL, G. PARKIN (New York, New York), A. L. RHEINGOLD, and B. S. HAGGERTY (Newark, Delaware)
Structural and Spectroscopic Studies on Four-, Five-, and Six-Coordinate Complexes of Zinc, Copper, Nickel, and Cobalt: Structural Models for the Bicarbonate Intermediate of the Carbonic Anhydrase Catalytic Cycle **105**

N. MIRSKY (Tivon, Israel)
Glucose Tolerance Factor Reduces Blood Glucose and Free Fatty Acids Levels in Diabetic Rats **123**

N. BOOGAARD, C. ALTONA, and J. REEDIJK (Leiden, The Netherlands)
Conformational Differences Between the Adducts of *cis*-DDP and *trans*-DDP with the Trinucleotide d(GpTpG). A ^{1}H and ^{31}NMR Investigation **129**

J. D. HIGGINS, L. NEELY (West Chester, Pennsylvania), and S. FRICKER (Reading, Great Britain)
Synthesis and Cytotoxicity of Some Cyclometallated Palladium Complexes **149**

Volume 49, Number 3 1993

Contents

A. G. HATZIDIMITRIOU, D. P. KESSISSOGLOU, and G. E. MANOUSSAKIS (Thessaloniki, Greece)
Synthesis, Characterization, and Molecular Modeling of Cu(II) and Au(III) Complexes with Hypoglycemic Drugs as Ligands **157**

J. A. COWAN (Columbus, Ohio)
Metallobiochemistry of RNA. $Co(NH_3)_6^{3+}$ as a Probe for $Mg^{2+}(aq)$ Binding Sites **171**

G. W. EVANS and D. J. POUCHNIK (Bemidji, Minnesota)
Composition and Biological Activity of Chromium-Pyridine Carboxylate Complexes **177**

J. I. TOOHEY (Elgin, Ontario, Canada)
Hydrosulfide Derivatives of Cobalamins **189**

L. MENABUE and MONICA SALADINI (Modena, Italy)
Coordination Behavior of Sulfa-Drugs: Synthesis, Structural, and Spectroscopic Investigation on M(II) (N^1-Pyrimidin-2YL-Sulfanilamido)$_2 \cdot \times H_2O$ **201**

G. BOCCHI and G. VALDRE (Bologna, Italy)
Physical, Chemical, and Mineralogical Characterization of Carbonate-Hydroxyapatite Concretions of the Human Pineal Gland **209**

J. A. BROOMHEAD, L. M. RENDINA (Canbera, Australia), and L. K. WEBSTER (Melbourne, Australia)
Dinuclear Complexes of Platinum Having Anticancer Properties. DNA-Binding Studies and Biological Activity of Bis(4,4′-dipyrazolylmethane-*N,N′*)-bis[dichloroplatinum(II)] and Related Complexes **221**

Volume 49, Number 4 1993

Contents

Y. Q. JIA and C. J. NIU (Jilin, China)
Photoelectron Spectra of Various Core Levels in Some Rare Earth N-Acetylvaline Bioinorganic Complexes **235**

M. H. SKIPWORTH, M. R. TAYLOR (Adelaide, Australia), J. C. AVILA-ROSON, M. A. HIDALGO, J. SUAREZ-VARELA, and E. COLACIO (Granada, Spain)
Metal Ion-Purine Base Interactions. Zinc(II) and Cadmium(II) Complexes of 8-Methylthiothheophylline. X-Ray Crystal Structure and Solution Structure of Bis(8-Methylthiotheophyllinato)diaquazinc(II) **245**

E. TSUCHIDA, H. NISHIDE, E. HASEGAWA, Y. CHIKA, M. FUKUZUMI, and T. KOMATSU (Tokyo, Japan)
Synthesis of Porphinatoirons Having an Alkyl Amphiphilic Chain and Their O_2 Binding Properties in Lipid Bilayers **255**

M. D. WIRT and M. R. CHANCE (Washington, DC)
Temperature Dependent Coordination Effects in Base-Off Adenosyl and Methylcobalamin by X-Ray Edge Spectroscopy **265**

F. CAPOLONGO (Padova, Italy), A. M. GIULIANI (Palermo), M. GIOMINI (La Sapienza, Rome), and U. RUSSO (Padova, Italy)
Interactions of Organotin(IV) Halides with Reduced Glutathione in Aqueous Solution **275**

A. HAMMERSHØI, G. NORD (Copenhagen, Denmark), and E. ROWATT (London, U.K.), L. K. SKOV (Copenhagen, Denmark), and R. J. P. WILLIAMS (Oxford, U.K.)
The Binding of a Complex Cobalt Ruthenium Polyamine by Deoxyribonucleic Acid and a Lipopolysaccharide: A Model for a Novel Class of Drugs **295**

Author Index **305**

Subject Index **307**
